Dimethylbenz(a)anthracene
tumours induced by, effect of progesterone on, 63
Dimethylnitrosamine
carcinogenic action after CCl_4, 451
hepatocarcinogenesis, 153
DNA
hydrocarbons, carcinogenic, binding to, 94
repair processes, 95

Endotoxin
anti-tumour actions, 370
Epithelial cells
effects of carcinogenic hydrocarbons and cigarette smoke, 93
transformation in organ culture, 93

FBJ osteosarcoma virus
inducing tumour-associated transplantation antigens, 415
Ferritinaemia
in leukaemia and Hodgkin's disease, 212
Fibrosarcoma, transplantable
response to cyclophosphamide, 72

Glioblastoma multiforme
specific active immunotherapy in, 253
Glucocorticoid hormone-recepto complex
in cytoplasm of hormone-responsive tumour, 441

Head
advanced squamous cell carcinoma of, 400
HeLa tumours
survival after antilymphocyte tumours, 390
Hepatocarcinogenesis
N,N-dimethylnitosamine, 153
Hepatomata, rat
chemically induced, alpha-foetoprotein in, 362
tumour growth curves, 341
Herpesvirus
Oncogenesis and Herpesviris (BR), 97
Herpesvirus hominis, Type 1
in oral leukoplakia and carcinoma, 351
Herpesvirus saimiri
maturation of, with unusual intranuclear tubular structures, 434
Histone
crude rat liver: enhanced malignant cell behaviour, 218
effects on cells, 93
Hodgkin's disease, 80
ferritinaemia in, 212
Hydrocarbons, carcinogenic
binding to DNA, 94
effects on epithelial tissues, 93

Intranuclear tubular structures, unusual with maturation of *H. saimiri*, 434

Kidney cell cultures, unusual intranuclear tubular structures associated with *H. saimiri*, 434

Leukaemia
granulocytic, chronic: Seminar on (BR), 485
myeloblastic, acute: ferritinaemia in, 212
myeloid: tissue culture studies, 191
myeloid, acute: PHA responsiveness and serum inhibitory factors, 203
N-acetyl neuraminic acid content of human lymphocytes, 114
neuraminidase induced loss in transplantability of murine leukaemia, 106
radiogenic: recognition of, in abortion, 465
Leukoplakia, oral
Herpesvirus hominis Type 1 in, 351
Lipid A
anti-tumour action, 370
Liver
cancer and dietary aflatoxins, 473
cell-lines, changes in culture, 93
cell-lines, highly contact inhibited, 92
isolation of arginine-acceptor proteins from, 18
Lung
peripheral tumours, 173
tumour cells and metastes, clonogenic growth, 291
urethane-induced adenomata, immunogenicity, 345
Lymphocytes, human
N-acetyl neuraminic acid content, 114
transformation in large bowel cancer, 409
Lymphoma, malignant: Seminar on (BR), 485

M-components
in sera, with solid malignant neoplasms, 276
Macrophage electrophoretic mobility test
evaluation and development, 1
Mammary tumours
7,12-dimethylbenz(a)anthracene induced—effects of progesterone on, 63
Methotrexate
in treatment of advanced squamous cell carcinoma, 400
Methylcholanthrene
induced sarcoma cells, BCG immunotherapy and, 48
induced sarcoma cells, cross-reacting embryonic antigen in, 35
induction of tumours with, 445

N-acetyl neuraminic acid
content of human lymphocytes, 114
N,N-dimethylnitrosamine, 153
Nandrolone decanoate
cyclophosphamide and, in treatment of advanced breast cancer, 396
Neck
advanced squamous cell carcinoma of, 400
Neoantigens on chemically induced tumours, 92
Neoplasms, solid malignant
with M-components in sera, 276
Neuraminidase induced loss
in transplantability of murine leukaemia, 106

Novikoff hepatoma supernatant
isolation of arginine-acceptor proteins from, 18

Onco-embryonic antigen
in rat sarcoma cells, 35
Oral leukoplakia
Herpesvirus hominis Type 1 in, 351
Oxford Survey of Childhood Cancers, 465

Paterson Symposium on Carcinogenesis, 92
Peripheral lung tumours, 173
Polyoma virus
immunological control, 10
Progesterone
7,12-dimethylbenz(a)anthracene induced mammary tumours and, 63
Prostate
benign hyperplasia, morphological changes, 323
Proteinase
inhibition of malignant cell invasion, 460
Proteins, soluble
azodye carcinogens, binding of, 94
Pulmonary tumours
methylcholanthrene-induced, BCG immunotherapy of, 48

Radiation
interaction with chemicals and virus, 92
ionizing—levels and effects (BR), 268
Rectum
lymphocyte transformation in large bowel cancer, 409
Ribosome
aflatoxin B_1—association with, 283
RNA, double-stranded
anti-tumour actions, 370

Sarcoma, methylcholanthrene-induced
pulmonary growths, BCG immunotherapy, 48
tumour-associated macromolecules in, 35
tumour-specific membrane antigen in, 27
Yoshida cells, transferable MDMS-resistant, 245
Squamous cell carcinoma, advanced
intravenous chemotherapy treatment, 400
Stillbirths
cancer as cause of, 465
Surfactants
injection site tumours, 230

Teratomata
Y bodies and fluorescent chemocentres in, 183
Thyroid tumours: Seminar on (BR), 485
Transformation
in millipore-filter diffusion chambers, 93
in vitro, important factors in, 94
malignant, hereditary nature, 95
malignant, involvement of chemical compounds, 95
of epithelial cells in organ culture, 93
Tumour cells
transplantation kinetics, 55
Tumours
drug resistance in, 406
hormone responsive: glucocorticoid hormone-recepto complex in cytoplasm of, 441
induction with methylcholanthrene and diethylnitrosamine, 445
Y bodies and fluorescent chemocentres in, 183
Tumours, allogeneic
colony forming efficiency, 134
Tumours, syngeneic
growth in unimmunized newborn and adult hosts, 120

Urine
alpha-foetoprotein in pregnant rats, 362
30HA in bladder cancer patients, 316

Viruses
does cancer cause viruses?, 95
interactions with chemicals and radiation, 92

Y bodies
in human tumours, 183
Yoshida sarcoma cells, MDMS resistant
transferable " resistance " factor, 245

POUND, A. W., LAWSON, T. A. AND HORN, LORRAINE—Increased Carcinogenic Action of Dimethylnitrosamine after Prior Administration of Carbon Tetrachloride . 451

LATNER, A. L., LONGSTAFF, E. AND PRADHAN, K.—Inhibition of Malignant Cell Invasion *in vitro* by a Proteinase Inhibitor 460

STEWART, A. M.—Cancer as a Cause of Abortions and Stillbirths: the Effect of these Early Deaths on the Recognition of Radiogenic Leukaemias 465

PEERS, F. G. AND LINSELL, C. A.—Dietary Aflatoxins and Liver Cancer—A Population Based Study in Kenya 473

BOOK REVIEW 485

MEETING ANNOUNCEMENTS 485

INDEX TO SUBJECTS 488

INDEX TO AUTHORS 491

INDEX

28

SUBJECT INDEX

"S" before a page number indicates a Supplement page.
(BR) = Book Review.

Aflatoxin B_1
  liver microsomal metabolite, activation of, 544.
Africa
  southern, oesophageal cancer among mine-workers, 86.
Alimentary cancer
  environmental factors, 93.
Anaemia, pernicious, see *pernicious anaemia*.
Androgen metabolism
  in breast tissue, 77.
Antibodies
  circulating, in connective tissue malignancy, S175.
  circulating, in malignant disease, S170.
  TSTAs and, in chemically induced sarcomata, 6.
  tumour specific, effect of chlorambucil, S285.
Antigens
  carcinoembryonic, see *carcinoembryonic antigens*.
  chemical nature of cancer basic protein, S224.
  circulating, as inhibitor of tumour immunity, S153.
  circulating, in serum inhibitory activity, 25.
  hepatoma D23, detection of, in tumour bearer serum, 16.
  HL-A, S243.
  tumour specific, in chemically induced sarcomata, 6.
  tumour associated, on colonic carcinomata, S142.
  tumour specific transplantation, radioimmunoassay, 377.
  urea-extracted, of mouse epidermis and squamous cell carcinomata, 36.
Asbestos
  inoculation with, mesotheliomata after, 173.
Aspiration
  in diagnosis of childhood malignant disease, 477.
Aspirin
  inhibition of osteolytic tumour deposits, 316.

BCG
  immunotherapy, 79, 281.
  in melanoma patients, S97.
Bacteria
  human cancer, aetiology and, 94.
  immunoglobulins, and, in human stomach, 94.
Benzflavone
  inhibition of tumorigenesis, 84.
Bile
  methotrexate in, after iv dosage, 589.
Bis(2-chloroethyl)-1-nitrosurea
  sensitivity of cells to, 500.
Bladder cancer
  cellular immune response, S266.
  effect of radiation and chemical carcinogens, 227.
  treatment with sensitized pig lymphocytes, S276.
Bleomycin sensitivity
  cells, 500.
  spleen colony forming units, 66.
Blood platelets
  role in metastases, 429.
Bowel cancer
  large, lymphocyte transformation in, 78.
  transplantation into immune deprived mice, 400.
  transplantation into immune deprived mice treated with anti-thymocyte serum, 412.
Breast cancer
  androgen metabolism in, 77.
  advanced, cyclical combination chemotherapy in, 459.
  aspirin inhibition of osteolytic tumour deposits, 316.
  cellular immunity, S77.
  chemical carcinogens, 89.
  dietary restriction, suppression by, 83.
  DMBA induced, lymphoid response in, 83.
  environmental factors—surgeon's view, 90.
  hormone dependence, 76.
  hormones, effect of, on DNA synthesis, 76.
  immune response, 77.
  immune responses to tumour and embryo cells, S103.
  male, in Denmark, 552.
  malignant neoplasia, delayed hypersensitivity skin testing, 80.
  mammary carcinoma, radiotherapy of, iodoacetamide and, 190.
  mammary tumour virus—a review, 96.
  mammary tumours induced by DMBA, effects of hypothyroidism and progesterone, 161.
  progestins and, 83.
  prolactin and, 82.

Breast Cancer (*continued*)
steroid sulphation, 77.
TNM classification, evaluation of, 580.
tumour autograft, leucocyte function after, S83.
tumours, oestradiol uptake, 76.
viral aetiology, 88.
British Association for Cancer Research
14th Annual General Meeting, 75.
Burkitt's lymphoma
in Tanzania, 469.

Cancer
Caspian Cancer Registry, 197.
chemical nature of basic protein, S224.
circulating antibodies in connective tissue malignancy, S175.
circulating antibodies in malignant disease, S170.
control measures, evaluation of, 105.
drug therapy(BR), 102.
drugs and hyperthermia, sensitivity screening system, 81.
inherited predisposition, dermatoglyphic study, 186
macrophage electrophoretic mobility test, S208.
serum inhibitory activity in, 25.
tissue interactions in carcinogenesis, (BR) 103.
Carcinoembryonic antigen
" fingerprints ", 464.
immunological study, 147.
in urothelial carcinoma, S198.
Carcinogens
influence on murine leukaemia, 299.
transformation rate, 71.
Carcinomata
lymphocyte anergy in, 108.
squamous cell, urea-extracted proteins of epidermis and, 36.
Carrageenan, degraded
effect on tumour growth, 82.
Caspian Cancer Registry, 197.
Cells
agglutination by concanavalin A, 86.
cytotoxic lymphoid cells, influence of tumour growth on, 136.
mammalian, cytotoxicity, transformation rate, 71.
mitotic inhibition after exposure to hypertonic media, 85.
sensitivity to BLM and BCNU, 500.
Central nervous system
lymphocytotoxicity and blocking factors in tumours, S135.
Cerebral tumours
in children, 568.
Cervix uteri
exfoliated cells, examination by electron microscopy, 86.
squamous cell carcinoma, compared with normal, 488.
squamous cell carcinoma, prognosis of, 322.
Children
aspiration in diagnosis of malignant disease, 477.
cancer in, epidemiological study, 86.
cerebral and spinal cord tumours in, 568.
Chlorambucil
tumour specific antibodies and, S285.
Coffee
renal carcinoma and, 473.
Colonic carcinoma
dimethylhydrazine induced, 530.
fibre and, 462.
inhibition of cell mediated cytotoxicity, 79.
lymphocyte anergy in, 108.
malignant neoplasia, delayed hypersensitivity skin testing, 80.
tumour associated antigens and, S142.
Concanavalin A
agglutination, 86.
Cyclopenta[a]phenanthrenones
inhibition by 7,8-Benzflavone, 84.
Cyclophosphamide metabolism
active intermediate in, 81.

Denmark
male breast cancer, 552.
smoking habits and oral leukoplakias, 575.
Dermatoglyphics
inherited predisposition to cancer, 186.
Dibutylnitrosamine
radiation, in bladder cancer, 227.
Dietary restriction
mammary tumour and hepatoma suppression, 83.
Diethylnitrosamine
administration to nursing mothers, 84.
Dimethylbenz[a]anthracene
carcinogenesis, target cell, 85.
mammary tumours induced by, effects of hypothyroidism and progesterone on, 161.
tumours induced by, anti-lymphocyte serum hastens growth, 221.
Dimethylhydrazine
tumour induction as model for colorectal cancer, 530.
Dimethylnitrosamine
kidney tumour induction, dose rate, 83.
liver cells, rat, malignant transformation of, 215.
DNA
7-methylbenz[a]anthracene derivatives, binding to, 84.
squamous cell of cervix, value in prognosis, 322.

Ehrlich ascites cells
adhesion, effect of protease inhibitor, 417.
trypsin inhibitor coated, changes in growth and adhesion, 80.
Electron paramagnetic resonance
signals in tumour tissue, 257.

Electron spin resonance
in normal and tumour bearing patients, 340.
Enzymes
alkylating agents, 81.
4-ethylsulphonyl-naphthalene-1-sulphonamide
radiation and, in bladder cancer, 227.

Fibre
colon, cancer of, and, 462.
Fibrosis
retroperitoneal, malignant disease and, 453.

Gastrointestinal cancer
see also *alimentary cancer*; *oesophageal cancer*; *stomach cancer*.
malignant neoplasia, delayed hypersensitivity skin testing, 80.
pernicious anaemia, role of bacteria and immunoglobulins, 94.
Genetics
inherited predisposition to cancer; dermatoglyphic study, 186.
origin of leucocytic mucopolysaccharides, 269.

Hepatoma
D23 antigen, 16.
dietary restriction, suppression by, 83.
membrane fractions, immunogenicity, 389.
Herpesvirus hominis type 1
cell mediated immunity, S128.
Hodgkin's disease
immune responsiveness, S119.
lymphocyte transformation, assessment of, 78.
tissue labelled with tritiated thymidine, 332.
Hormones
dependence in breast cancer, 76.
DNA synthesis in explants from breast cancer, 76.
influence on murine leukaemia, 299.
Hungary
smoking habits and oral leukoplakias, 575.
Hypercalcaemia
inhibition by aspirin, 316.
Hyperthermia
sensitivity screening system, 81.
Hypertrophic pulmonary osteoarthropathy
increased serum growth hormone, 361.
Hypothyroidism
mammary tumours induced by DMBA, effects on , 161.

ICRF 159, effects *in vitro*, 82.
Immunization
effect of irradiated tumour cells, 25.
Immunoglobulin
lymphocyte cytotoxicity and, 87.
Indomethacin
inhibition of osteolytic tumour deposits, 316.
Iodocetamide
in radiotherapy of mouse mammary carcinoma 190.

Ketones
15,16-dihydro-11-methyl-cyclopenta[a]-phenanthren-17-ketone, 84.
Kidney
coffee consumption and renal carcinoma, 473.
metastases, local x-irradiation in, 349.
tumours, dimethylnitrosamine induction, 83.

Lectures
Walter Hubert lecture, 5th, 96.
Leucocytes
immunity to breast carcinoma and malignant melanoma, S77.
mammary cancer, leucocyte functions after tumour autograft, S83.
mucopolysaccharides, genetic origin, 269.
Leukaemia
acute myelogenous, immunotherapy, 365, S262.
chromosome studies, sampling time, 194.
chronic lymphatic, increased potassium in lymphocytes, 354.
Dunning, immunotherapy with thymic extracts, 288.
genetic markers, 87.
induction by ^{131}I treatment of thyroid carcinoma, 232.
influence of hormones and chemical carcinogens, 299.
murine leukaemia-sarcoma virus, immuniy to tumours of, 826.
protective effect of antisera, S11.
Leukoplakias
Herpesvirus hominis type 1, cell mediated immunity to, S128.
oral, smoking habits and, in Denmark & Hungary, 575.
Liver
malignant transformation of rat cells by DMN and MNNG, 215.
metastases, local x-irradiation in, 349.
methotrexate in, after iv dosage, 589.
Lung
cancer in miners, 87.
derepression of alloantigens in malignancy, S48.
tumours in north Thailand, 358.
Lymphocytes
anergy in patients with carcinoma, 108.
cytotoxicity, antibody dependent, immunoglobulin and, 87.
immune, in a syngeneic tumour system, S35.
in Hodgkin's disease, 78.
in large bowel cancer, 78.
sensitization, MEM test for, S215.
stimulation by autochthonous solid tumour, S72.
Lymphosarcoma
irradiation, effect on development of metastases, 508.

Macrophages
and tumour-bearing host, S19
isolation of "antigen" from malignant tumours, S219.
MEM test, critical evaluation, S208.
MEM test, for lymphocyte sensitization, S215.
MEM test, technical aspects, S229.
Makari tumour skin test, S187.
Marek's disease
role of macrophages in, 79.
Melanoma
BCG, immunological studies in, S97.
Harding-Passey, growth inhibitory effect, 80.
malignant, cellular immunity to, 77, S77.
malignant, fluorescent antibody studies in, 78, 525.
Mesotheliomata
asbestos, after inoculation with, 173.
Metastases
development, effect of irradiated lymphosarcoma, 508.
role of blood platelets, 429.
spread in osteosarcoma, 515.
Methotrexate
in liver and bile after iv dosage, 589.
resistance to, studies on overcoming, 263.
Methylbenz[a]anthracene
see also *Di-*.
binding to DNA, 84.
bromomethyl-12-MBA, mechanism of tumour initiation, 85.
Methyl-N-nitro-nitrosoguanidine
malignant transformation of rat liver cells, 215.
Methylene dimethane sulphonate
in Yoshida sarcoma, 81.
Microscopy
scanning electron, examination of exfoliated cervical cells, 86.
Mineworkers
lung cancer in, 87.
oesophageal cancer in southern Africa, 86.

Nitrosamines
see also *Dibutyl-*; *diethyl-*; *dimethyl-*.
oxidation, alkylating agents, 84.
stomach cancer, bacteria and, 562.
Nitroso-carcinogens
mechanisms of action, 436.
Nitrosomethylurea
tumours transformed after treatment with, 440.

Oesophageal cancer
in Caspian Littoral of Iran, 197.
in cattle, environmental factors, 93.
in mineworkers in southern Africa, 86.
Oestradiol
uptake by breast tumours, 76.
Osteolytic bone deposits
aspirin inhibition, 316.
Osteosarcoma
metastic spread of, 515.
Ovaries
tumours, malignant, 46.

Peritoneum
macrophages, growth inhibitory effect on HP melanoma, 80.
Pernicious anaemia
immunoglobulins and bacteria in, 94.
Porokeratosis of Mibelli
chromosomal instability, 88.
Potassium
increased, in lymphocytes in chronic lymphatic leukaemia, 354.
Progesterone
mammary tumours induced by DMBA, effects on, 161.
Progestins
mammary cancer induction, 83.
Prolactin
dependence, in breast cancer, 76.
imbalance, in breast cancer, 82.
Proteins
urea-extracted, of mouse epidermis and squamous cell carcinomata, 36.

Radiation
[^{3}H]-MNDP uptake, 55.
chemical carcinogens and, in bladder cancer, 227.
ionizing, induction of leukaemia, 232
irradiating lymphosarcoma, effect on development of metastases, 508.
Renal, see *kidney*

Sarcomata
BCG immunotherapy, 79, 281.
chemically-induced, TSTAs in, 6.
Skin cancer
Makari tumour skin test, S187.
porokeratosis of Mibelli, chromosomal instability, 88.
solar radiation and, 91.
squamous carcinoma, 91.
Smoking
oral leukoplakias and, in Denmark and Hungary, 575.
Spinal cord tumours
in children, 568.
Spleen
Bleomycin sensitivity, 66.
Steroid sulphation
breast cancer, 77.
Stomach cancer
bacteria, nitrosamines and, 562.
immunoglobulins and bacteria in, 94.
in cattle, environmental factors, 93.
Syngeneic rat tumour
immune response, 118, 293.

Tanzania
Burkitt's lymphoma in, 469.
Testes
high chromosome numbers of seminomata and teratomata, 275.
Thailand
lung tumours in, 358.
Thymus
extracts in immunotherapy of Dunning leukaemia, 288.
Thyroid carcinoma
^{131}I treatment, induction of leukaemia, 232.
Transformation rate, of chemical carcinogens, 71.
Tritiated thymidine
in Hodgkin's disease, 332.
Trypsin inhibitor
Ehrlich ascites, coated with, changes in growth and adhesion, 80.
Tumours
autochthonous solid, lymphocyte stimulation by, 872.
cells, [^{3}H]-MNDP uptake, 55.
derepression of alloantigens in malignancy, 848.
effect of anti-cancer agents on immunological status, 8254.
epr signals, 257.
growth, effect of degraded Carrageenan, 82.
Tumours (*continued*)
hormone dependant, cytoplasmic oestrogen receptors, 310.
hybridization of viral nucleic acids, 87.
immunity, circulating antigen as inhibitor, 8153.
immunotherapy, 1.
isolation of " antigen " in MEM test, 8219.
ovarian, 46.
serum factors modifying cellular immune responses, 837.
transformation after treatment with nitrosomethylurea, 440.
transplantability, effect of lethally irradiated cells, 123.
trophoblastic, cellular reaction in, 245.
trophoblastic, immunological aspects, 8250.

Uganda
aspiration in diagnosis of children, 477.
Urothelial carcinoma
carcinoembryonic antigen in, 8198.

Viruses
Murine sarcoma virus oncogenesis, prevention in offspring of immunized mothers, 238.

Yoshida sarcoma
methylene dimethane sulphonate in, 81.
